425 DX NEWS MAGAZINE ---> The August 2013 issue is now available for download at www.425dxn.org/monthly/index.html. [TNX IZ3EBA]

AMSTERDAM 2014 ---> "Essentially all the FT5ZM team's equipment is now

in hand and at the Atlanta staging area or undergoing final testing in preparation for shipment to Atlanta", K0IR reported on 10 September. While "the Amsterdam Island DXpedition team's progress continues unabated", a major milestone occurred when the team made their initial payment (NZD 175,000) for the charter of the ship. "Our next payment is due in December, so like all major DXpeditions of this magnitude, we will feel the cash flow crunch shortly. We are hoping you can support us up front when we need the money and help us make Amsterdam a memorable DXpedition. If you've supported us, we greatly appreciate it. If you have not yet done so, please consider helping us now". More information on the DXpedition budget can be found at <http://www.amsterdamdX.org/why-does-this-dxpedition-cost-so-much/> "Let's assume we are on the air for 14 days", K4UEE says. "That equates to 20,160 minutes on the air. If our budget is \$400,000 (not including operator travel costs to Perth and back), then our time on the air costs \$19.84 per minute. Assume we make 100,000 QSOs, (a worthy goal for a #4 'most-needed'). The cost per QSO works out to \$4.00". The DXpedition operators will pay about half of that, but "our sponsors including DX Foundations, DX Clubs and individual DXers worldwide need to pay the remainder. So, when deciding not if, but how much support you will offer FT5ZM, ask yourself: How many QSOs am I going to make? How important are those QSOs to me?"

GREEK TELEGRAPHY CLUB CUP ---> The 3rd Greek Telegraphy Club CW Cup will take place from 12 UTC on 5 October until 12 UTC on the 6th. Full details can be found at <http://www.raag.org/displayITM1.asp?ITMID=630&LANG=EN> [TNX SV5DKL]

P29VNX ---> The 8-13 September operation from Lissenung Island (OC-008) [425DXN 1161] by Akira, JA1NLX (P29VNX) has been cancelled due to flight problems.

QSL 5A1AL ---> Abubaker Alzway, 5A1AL (DL1AL) says that his stay in Libya has been extended. All of the QSL cards that have already been sent to his address in Germany will be forwarded to him via air mail "until 15 September 2013". His current address for QSLling is P.O. Box 6279, Tripoli, Libya: send only your card and a SAE, return postage to be paid via PayPal (please email elzo71@yahoo.com for PayPal account details).

QSL 9M2PJU ---> Effective immediately, the new QSL route for 9M2PJU is via K2AU (direct). "I will not reply any QSL cards received from MARTS bureau", Piju says, "but I will confirm QSOs on LoTW".

QSL YD9RQX/P ---> Steve, W2FB reports that he will be the QSL manager for YD9RQX/p (OC-275). Steve will not use any OQRS for this operation: YD9RQX "needs QSL cards to upgrade to the next license class", and so Steve would like "to get as many cards as possible from as many countries as possible".

QSL VIA NR6M ---> Rex is the new QSL manager for contacts made with either VK4SWE and VK4EI (Lyn on Sweers Island, OC-227). "I am starting the process of converting all the logs from paper to computer", he says. "There are a lot so this will take a little time". Direct cards should be sent to Rex Turvin, 18040 W Banning Street, Casa Grande AZ 85193, USA.

+ SILENT KEYS + The Amateur Radio Society of Kenya reports the tragic
+ news
of the untimely passing of Jagjeet Singh Virdee (5Z4GB/5H3JS), who
was killed on 30 August in an attack by an armed gang at his home in
Kericho.

QSLs received direct or through managers: 4A8DMR, 5W0M, 603A, 706T,
8R1AK,
