* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later".

3B8, MAURITIUS. A few sources are reporting that Robert, M0RCX, will be active as 3B8/M0RCX from Mauritius sometime around May 2-28th. Activity will be on 40/20/15/10/6 meters using some CW and mainly Digital (JT65, PSK31, ROS and maybe FSK441). QSL via M0RCX, direct, by the Bureau or eQSL.

9M2, WEST MALAYSIA. Members of the North of Peninsular Malaysia ARA Boys Contest n' DXers will be active as 9M2SM during the CQWW WPX SSB Contest (March 29-30th) as a Multi-1 entry on 80-10 meters. QSL via 9M2GET. Operators mentioned are Hairil/9M2GET, Han/9W2SBD, Mohamad/9W2SBL, Ahmad/9M2AGC, Syed/9M8SYA, Zam/9M2KRZ. Rizal/9M2RDX and Weerut/9W2RUT.

C2, NAURU. Operators Guenter/DL2AWG, Hans/DL6JGN and San/K5YY will be active from Nauru between April 3-16th. Callsigns have not been announced yet. They

are searching for operators to join them to operate CW, SSB and the Digital modes. QSL via DL2AWG. More details should be forthcoming.

CARIBBEAN TOUR (Reminder). By the time you read this, operators Mek/SP7VC, Ted/SP3IPB and YL Kate/SQ7OYL have begun their Caribbean tour to activate several islands between January 11-30th. Currently, the team is on Martinique as FM/SP7VC, FM/SP3IPB and FM/SQ7OYL until January 12th. The tentative schedule and callsigns for the rest of the tour are as follows:

January 13-14th - St. Lucia (J6); No activity planned.

January 15-16th - Dominica; callsigns J79VC and J79PB.

January 17-18th - Guadeloupe; callsigns FG/SP7VC, FG/SP3IPB and FG/SQ7OYL.

January 18-22nd - Montserrat; callsigns VP2MPG and VP2MTK.

January 21st - Antigua; callsigns V26/SP7VC and V26/SP3IPB

Activity will be on 160-6 meters. QSL via their home callsigns. Watch for updates on Mek's Blog page at: <http://www.sp7vc.dxing.pl>

DAYTON HAMVENTION NEWS. "The SouthWest Ohio DX Association (SWODXA) is pleased to announce that we will again sponsor the DX Dinner, held in conjunction with the 2014 Dayton Hamvention®. This, our 29th annual dinner, will be on Friday, May 16th, 2014, at the Dayton Marriott, 1414 S. Patterson Blvd., Dayton, OH 45409. There will be a cash bar starting at 5:30 p.m., with dinner served at 7:00. Following the meal, there will be a separate room and cash bar available for more fellowship.

This is an excellent opportunity to meet new hams and to renew old acquaintances as well as to learn about past DXpeditions and those in the planning stages. The Marriott is very accommodating to a group our size. The dining room is on the ground floor so there are no steps, the dining room is very large, and there is ample free, on-site parking.

This dinner is always well attended by some of the most avid DXers in the world. As in the past, there will be some major door prizes, and there is always great anticipation as to who will be named the 'DXpedition of the Year'.

The Marriott is a large hotel with many room choices. Should you need accommodations, their website is

<<http://www.marriott.com/hotels/travel/dayoh-dayton-marriott>>

and their phone number is 937 223-1000.

Program details and a list of the prizes will be on the website as they become available and updates will be sent out regularly via Twitter.

Check out our Facebook page at 'Southwest Ohio DX Association', or follow us on Twitter - @SWODXA "

Preliminary Information from Bill Salyers - AJ8B (AJ8B@arrl.net)

FR/T, TROMELIN (Press Release)[edited]: "Hi friends -- The interest generated by the announcement of our project a few weeks ago is extremely important. We expect you to live this adventure with us and its organization throughout the year and to share with you our passion for these remote lands. In due course, we will give some details about the different aspects of the project, but you will find below some answers to questions related to the size of the team, the logistics and the organization required.

Of all the islands that form the 'Scattered Islands', Tromelin is the smallest. This one-square kilometer piece of land was classified as a natural reserve back in 1975. The fauna and flora, almost intact, offer a great

environment for scientific research. Each year, there are only a few scientists who are allowed to study turtle and seabird colonies. Each research program is the subject of a joint validation from TAAF (Antarctic and Austral territories authority) and CNRS (National Institute of Sciences of the Universe and the National Institute of Ecology and Environment).

Tromelin is the only one of the Scattered Islands to hold only a permanent population of 3 technicians belonging to TAAF. The other islands are homed to military detachments (Armed Forces in the South Zone of the Indian Ocean (FAZSOI) and one policeman. Each mission on Tromelin substantially increases temporarily its population and induces a potential environmental impact.

The ham radio Dxpediton in 2000 incorporated this concern for preserving the environment with a staff of four operators. During our preliminary discussions with the authorities in charge of Tromelin, the compromise on the size of the team became obvious. It is inconceivable to lead an expedition with 24 operators on such a small and fragile territory. Besides the ecological impact, difficulties in gaining access as well as logistics would not allow it.

For our project in November 2014 there will be 6 operators who have been authorized for a period of 10 days. While this may reveal a gap with the standard big amateur expeditions that we are getting used to these days, do not forget that once our local team gets there, the population of the island will have already tripled.

In order to maximize our time during these 10 days, it is important to be supportive, organized and know each other very well. It is with this objective that an experienced group, with a real team spirit was formed. This solution was preferred to recruiting an international 'patchwork' of operators without a common experience. F6KDF, the Lyon DX Gang and F6KOP Team have proven many times to be up to it.

The presence of French forces on Europa, Juan de Nova and Glorioso facilitated logistical issues for amateur military Dxpeditons conducted in 2003 on Europa and in 2009 on Glorioso.

For Tromelin, the situation is different because the transport of the operators and the equipment will be made by means of a small private plane. This induces a significant cost due to multiple trips, but it is our only way to rally the island.

The primary objective will not be for a handful of 'big guns' to complete their umpteenth award but rather to give all the opportunity to contact us, whatever the geographical constraints or propagation.

At the end of 2013 we launched the website and communicated to the Amateur Radio community throughout the world. These last two weeks have been used to solicit amateur clubs and associations inviting them to take part in our project. Some have already committed to our Dxpediton.

We hope that many more will join them. The support of all is a prerequisite for the return of Tromelin on the air after so many years of silence. The work will continue throughout the year. Soon we will designate our pilot stations with whom we will closely work while pursuing substantive work on the entire organization.

We are only a few hours ahead of another major Dxpediton, FT5ZM. Our Tromelin 2014 team wishes them good luck for a long journey to Amsterdam Island.

Thank you in advance for your support, have a great year 2014.

73's - The Tromelin island 2014 DXpediton Team.

Forwarded with 88/73, by Maurice, F5NQL, F6KOP member"

FT5Z, AMSTERDAM ISLAND. It was announced this past week that you will be able to track and work the FT5ZM team on the Braveheart on their journey to Amsterdam Island. The team will use the callsign VK6FZM/mm. You can track them at: <http://www.amsterdamdx.org/follow-the-ft5zm-team-journey-live> QSL via ClubLog or via N200 via regular mail or Bureau.

HI7, DOMINICAN REPUBLIC. Manu, ZP9MCE, will be active as HI7/ZP9MCE from Punta Cana Beach between April 7-14th. Activity will be holiday style and QRP on 40/30/20 meters CW only. QSL via EA5ZD.

IOTA NEWS.....

AF-032. (Latest Info) A group of Italian operators will be active as 5I0DX from an Italian village at the Kiwengwa Beach Resort on Zanzibar Island (WWF 5HFF-003) between February 2-13th. The European DXpedition Zanzibar 2014 Team wants to thank the sponsors, individual contributors, clubs and associations. Special thanks to the Tanzania Communication Regulatory Authority (TCRA), the Tanzania Amateur Radio Club (TARC) and their secretary Hidan, 5H3HO, for the collaboration and help. Activity will be on all HF bands 160-10 meters, including the 30/17/12 meter bands, using CW, SSB, PSK (31/63/125) and RTTY. Also, look for special SSB and Digital activity using the callsigns during this operation: 5I0AM (op. IS0AGY), 5I0WL (op. I8LWL) and 5H3AN (ops IK7JWX and IV3FSG). Current operators mentioned are Fred/IK7JWX, Leo/I8LWL, Ampelio/IS0AGY, Vincenzo/IZ8LFI, Elvira/IV3FSG (YL) and Fulvio/HB9DHG (CW op). Look for 5I0DX to participate in the CQ WPX RTTY Contest (February 8-9th). It was announced earlier that this DXpedition will also be a humanitarian operation with donations of medicines to the "Italy Day Hospital". Italy QSL Manager is via IK7JWX. World QSL Manager is via IS0AGY, direct (3USD or 3 IRCs) or by the Bureau. All logs will be uploaded to LoTW and NetLog. They are looking for sponsors for donations to Radio Club of Dar Es Salaam and Italy Day Hospital of Zanzibar (See QRZ.com for details.). Currently, updates are available on QRZ.com <<http://www.qrz.com/db/5i0dx>>. Also, checkout the following FaceBook page:

T8, PALAU. Nob, JR3STX, will once again be active as T88ST from the Palau rental shack <<http://palau.rental-shack.com/english>> between April 29th and May 7th. Activity will be on 80-6 meters using CW, SSB and RTTY. QSL via JR3STX.

TO3/FM, MARTINIQUE (Update). A team team of operators will be active as TO3JA from Martinique (NA-107) between January 12-19th. Operators mentioned are: Phone - Tatsuo/JA3ARJ and YL Hiroko/JH3PBL; CW/Digital - Kunio/JA1CJA, Masumi/JA3AVO and Nakasako/JA3UJR. QSL via JA3AVO, direct, by the Bureau or LoTW. There will be an OQRS on ClubLog. Look for more details to be forthcoming.

TO4/FM, MARTINIQUE (Update). Yves, F5GN, is now active as FM/F5GN from Martinique until sometime in February. His XYL Françoise, F4BMR, will join him and be active as TO4YL between February 8-24th. Activity will be on 160-10 meters. QSNs show that Yves has been on 20/10 meters SSB this past week. QSL via F5GN.

TO7, REUNION ISLAND. The following was posted on FaceBook by Frank, F4AJQ [edited]: "The team of 'F6KOP TEAM' operators has many DXpeditions projects, many of our members take part to or have take part of many DXpeditions organized by great international teams ... Remember HP0 With Vincent, FT5 Michel, S21 with many F6KOP operators (Henri Michel, Eric, and Norbert Heye) , San Andres with Bernard and Tony etc ...

After considering various projects and shared with the group, taking into account work at radio club, future DX expeditions of F6KOP friends and our big project of the end of the 2014 year, we decided to go an easy access DXCC country: easily obtaining a licence, place to go with 20-24 operators team.

While searching the net, of course taking into account the ideas of each and looking at the ClubLog statistics, we decided to go to the Réunion Island.

The Réunion Island you may ask? ! This is not Most Wanted !

Yes, it is true that this IOTA is only on the 122nd DXCC Most Wanted rank, but looking at the ClubLog statistics, the island is highly needed by low band and digital mode DXers. This is why we decided to make a special effort on the low bands and the Digimode.

For this we will have 4 full stations probably equipped with Elecraft K3 , K2 and ACOM 1010 amplifier. A Vertical L for 160m and 2-3 beverages. A vertical for 80m and a and four-square on 40 and 30meters, and also a 3 elements Spiderbeam on 30 meters. Other antennas will be 5 and 3 bands Spiderbeams.

There will be a simultaneous SSB, CW and RTTY station. The fourth station will be a mixed mode station. We will make a special effort on the low bands and hopefully make happy most of you.

The TO7CC team consists of 17 experienced operators, 6 nationalities: DJ7JC, DJ9RR, 9V1RM, OE3JAG, OZ1IKY, ON4LO, EI5GM, EI9FBB, F4DLM, F5NQL, F5EOT, F5UOW, F5JTV, F6IRA, F1ULQ and F4AJQ.

The QSL Manager will be our KOPain F1NGP, Yann. We are currently waiting for our pilot station. We hope you will find all the information on our following media pages: Web site - <http://www.to7cc.com>
Facebook - <https://www.facebook.com/TO7CC>

Twitter - <https://twitter.com/@to7cc>

The whole team wishes to find you in the pile-up and welcomes you in this new F6KOP TEAM adventure..... Best 73, F4AJQ Frank, Team leader"

V7, MARSHALL ISLANDS. Bill, N6MW, will be active as V73MW from the Long Island Hotel on Majuro Atoll (OC-029), Marshall Islands, between February 4-14th. Bill states: "Focus on ClubLog's most needed bands/modes - 160/80/30 CW and 20 for RTTY (not in contest), maybe some SSB and 17, while accepting the unfortunate 24 hours/day limitation. Equipment - K3/KPA500/KAT500/ Laptop. Antennas - Inv L/T/Vert for 160/80 with elevated radials using a Spiderbeam 18m fiberglass pole plus a 20m VDA and 30 m VD on a second fiberglass pole. Nightly efforts on 160/80. Freq 1820.5 for 160, UP. Always UP! 20m RTTY for some low brain needed time, with a focus on EU. On-line log at ClubLog updated as internet connection (and \$) allows. Would consider a second operator (see Web page below for E-mail address). QSL via LotW. QSL manager to be announced." Operations will be from the (north facing) beach on the lagoon at the Long Island Hotel. For more details and updates, see: <http://n6mw.jimdo.com/v7-dxpedition>

VK, AUSTRALIA. Tino, VK3EGN, will once again be active in the CQ 160-Meter CW Contest (January 24-26th) as a Single-Op/High-Power entry. He states that he will be using a 3 element vertical HW beam (kite lifted) antenna 120m (400ft) high from Ocean Grove Beach. QSL via VK3EGN to the Bureau.

VK9X, CHRISTMAS ISLAND. Operators Jon/K7CO and Christian/K7CXN will be active as VK9X/K7CO from Christmas Island (OC-002) between March 1-11th. They are looking for another CW operator to join them. A preferred ham that has pileup experience and also antenna installation experience. If interested, contact Jon at <k7co@vk9x.com>. Activity will be on 80-10 meters using CW, SSB and PSK31. Christian will be the primary operator on PSK31 and will also do some SSB. QSL via K7CO, direct or via the OQRS on ClubLog. NO Bureau. For more details and updates, see:
