EUROPEAN RADIO TEAM CHAMPIONSHIP 2014 [ERTC 2014] Two Press Releases --
Press Release June 24th:

SPECIAL EVENT STATION OF3ERTC ACTIVE STARTING THIS WEEKEND --

YOTA (Youngsters On The Air) is a youth movement inviting fifteen European national youth teams to a selected rotating EU location every year to get together, learn from each other and experience various aspects of Amateur Radio through meaningful and entertaining concepts emphasizing social, radio communication and technology skills. OF3ERTC is a special event Amateur Radio station active in conjunction with ERTC 2014 from July 18-20th, while OH2YOTA will be active from the actual event site in Virrat, Finland starting July 16th.

ERTC is a voice communication (VoIP) contest where two-member national youth teams try to make a maximum number of contacts with a maximum number of countries within a defined time period. ERTC uses a Virtual Amateur Radio platform (HamSphere) where amateur radio-like operating is conducted on the Internet with amateur radio-like bands and operating features such as current radio propagation together with beam antennas and amplifiers plus an online logbook, awards and QSLing backed up with learning material and an exam free entry gate. All this makes HamSphere a highly suitable application to learn about real Amateur Radio and help youth to discover Amateur Radio in their regular hangout, the Internet. See:

http://www.hamsphere.com/23_31496_read.html

PARTICIPATING COUNTRIES -- Belgium (ON), Bulgaria (LZ), Croatia (9A), Czech Republic (OK), Estonia (ES), Finland (OH), Italy (I), Lithuania (LY), Netherlands (PA), Poland (SP), Romania (YO), Slovakia (OM), Sweden (SM), United Kingdom (G) and Spain (EA). These country-teams are currently active in Virtual World Amateur Radio practicing and preparing for their trip to Finland. Also, some invited Exhibition Teams will participate in the event over the Internet.

This weekend's OF3ERTC combo activity is courtesy of OH1RX, OH2BCI, OH2BH, OH2MM, OH2PM, OH2UA and OH6KZP on Real Amateur Radio while OH9MM will activate OF3ERTC on HamSphere. QSL OF3ERTC via OH2BH.

Press Release July, 3rd.

EUROPEAN TEAM CHAMPIONSHIP (ERTC) 2014 --- OF3ERTC

Many were probably wondering what last weekend's Special Event station

OF3ERTC was all about. This weekend OF3ERTC will again hit the airwaves through the efforts of Pertti, OH2PM and Rami, OHJ2BCI on frequencies detailed in the OF3ERTC QRZ.com listing. <www.qrz.com/db/of3ertc> Also, OF3ERTC will take part in the IARU HF World Championship with Raimo, OH2BCI, former SRAL President, at the helm. This will be an addition to the OH2HQ group. Similarly, it is very likely that an OH0W multiplier will be activated during the IARU weekend.

ERTC is a Virtual World version of WRTC - to be held one week after the Boston event. Almost one-hundred youngsters will travel to Virrat, Finland, to compete under WRTC-like rules with their QSOs to all corners of the world to be made with real people on Virtual Amateur Radio bands!

The event is financed by the European Union and the International Amateur Radio Union, Region 1.

Many real stations are also scheduled to enter this ground breaking event, among them Tim Duffy, K3LR who will bring his "real virtual" team to participate in ERTC 2014 as an "Exhibition Team". Make sure you can see the distinction between "real" and "virtual" and their variants "virtual-real" and "real-virtual".

You can keep up with the event as it evolves on QRZ.com. More details will be released soon about this unique virtual concept, involving thousands of soon-to-be hams all over the world. The current population on used virtual platform is passed 30,000.
