5U, NIGER. Just a reminder that Chris, F4WBN/TL0A, will once again be active as 5U5U from Niger between May 30th and June 16th. Activity will be holiday style on 40-6 meters using SSB and some RTTY. QSL via his home callsign direct.

6Y, JAMAICA. Armin, DK9PY, is now active as 6Y6N from Saint Elizabeth until June 2nd. Activity will be holiday style on the HF bands using his FT-857 into an inverted L. Look for him to be in the CQWW WPX CW Contest (May 30-31st) as a Single-Op/All-Band entry using Josh's, 6Y5WJ, station. QSL via his home callsign, direct or by the Bureau.

A4, OMAN. Members of the Royal Omani Amateur Radio Society (ROARS) [A47RS] will be participating in the CQWW WPX CW Contest (May 30-31st) using the callsign A42A as a Multi-Op/Single-Transmitter/High-Power entry. QSL via A47RS, by the Bureau or direct. Operators mentioned are Sageeth (SAN)/A45WH, Mohib/ A41JZ, Fahad/A41LK and Aziz/A41RO.

C5, THE GAMBIA (Update). Luc, F5RAV, will once again be active as as C5LT from Kololi between October 20-27th. Activity will be on 40-10 meters using

SSB, RTTY and possibly CW. Operations will also include the CQWW DX SSB Contest (October 24-25th) using the shorter callsign C5C. It was reported this week that Gerard, F5NVF, will be joining Luc, but will be active as C5C on CW only. Also, Mustapha, C5MF, their guide in the Gambia and a new ham, will be making his first QSOs with you. QSL via C5LT, C5C and C5MF only direct to F5RAV.

CT3, MADEIRA ISLAND. Ricardo, CT3KN, will be active from Madeira Island during the CQWW WPX CW Contest (May 30-31st) as a Single-Op/Single-Band (15m) entry. QSL via his home callsign, LoTW, direct or by the Bureau.

CU4, AZORES (Rare IOTA). Operators Dave/K1ZZ, Linda/KA1ZD and Azores operators Manuel/CU2CE, Francisco/CU2DX and Martti/OH2BH/CU2KG will activate the rare IOTA Graciosa Island in the Azores Group as CU4DX on IOTA frequency 14260 kHz, May 28-29th (two nights prior of the CQWW WPX CW Contest (May 30-31st)). They are hosted by CU4AB. Dave will run the actual CQWW WPX CW Contest as a Single-Op/All-Band entry. QSL via CU2DX.

E5/S, SOUTH COOK ISLANDS. Operators Tatsuo/JA3ARJ, Masumi/JA3AVO, Jusei/JA3IVU, Nakasako/JA3UJR, Noriaki/JF3HPN, Kunio/JH3LSS and Hiroko/JH3PBL will be active from the Kii Kii Motel on Rarotonga between January 12-21st, 2016. The group has applied for a E5\*J callsign. For more details and updates, see: <http://ja3avo.blog81.fc2.com/blog-entry-2707.html>

EP, IRAN. Operators Mohammad/EP3MIR, Mohammad/EP2LMA and Saeed/EP2LSH are planning their first Iranian DXpedition starting June 7th, using the callsign EP2C. Details of the location has not been released. Stay tuned!

HS, THAILAND. Bob, HS0ZIA, will be active during the CQWW WPX CW Contest (July 25-26th) this weekend. Reportedly, he has a multi element yagi at 200 ft. for 80 meters. Thailand radio rules continue to limit hams to the bottom 25 kHz of 80m. This will be a good chance to get HS on 80m, but you have to look for ZIA all hours in the contest, not just the last hour. QSL via LoTW.

REALTIME BAND CONDITIONS WEB SITE <<http://www.bandconditions.com>>:

The purpose of this experimental Web site is to provide 24-7-365 actual (REALTIME) band condition information to CW QRPP, QRPE and CW/SSB for Contesters interested in increasing their scores. It can also be of benefit to other Radio Amateurs to determine band conditions for Nets and casual QSO's. This information is NOT based on any software predictions or any kind of satellite based readings. It is based on a new Ionospheric sounding method called "HF Ionospheric Interferometry" which operates very similarly to the PolSAR system used by NASA.

PU70, BRAZIL (Special Event). Rony, PS7AB, will activate special event station PT70FEB between June 1-30th. Activity is to celebrate the 70th anniversary of World War II and to remember the importance of PEACE. The special callsign is also in honor to all who participated in the war, especially the Brazilian Expeditionary Force - FEB, on the battlefields in Italy. Operations will be on 40/20/17/15/10 meters using SSB and CW/Digital. QSL via PS7AB, direct (2 USDs), by the Bureau, eQSL or LoTW. A special certificate will be sent in 2016 via E-mail to stations who made contacts with at least 10 Special Event Stations by mode (SSB, CW or Digital), or mixed (3 modes). Each month in 2015, Ronaldo will activate a different callsign and also send 12 different QSLs. PU70FEB is the sixth special event station to celebrate the 70th anniversary of the end of World War II in 2015. For more details, see:

VP8SGI/VP8STI DXPELITION NEWS (A request for funding!). The following was received from Paul, N6PSE [edited]: The last major operations from South Sandwich and South Georgia Islands were in 2002. Since that time, these islands have steadily climbed the most wanted list. South Sandwich is currently the #3 most wanted DXCC entity, while South Georgia is the #8 most wanted entity.

Our goal is to conduct two 8-10 day DXpeditions to each of these top ten entities. To effectively do that, we need your support.

The fourteen members of the VP8STI/VP8SGI team have committed to paying \$210,000 of the \$425,000 needed to carry out this Dxpediton. To date, we have raised \$315,000 which includes our team contribution. We still have a significant deficit of \$110,000. The VP8STI/VP8SGI team needs the support of the worldwide DX Community to help us make this Dxpediton a success.

While donations from North America were strong initially, we would greatly appreciate more support from North America, Europe, Asia and South America. To date, North America Clubs & Foundations have provided 87% of our support, while 12% comes from Europe and less than one percent from Asia.

Both David (K3LP-Co Team Leader) and I think our plans for the low bands, which include a four-square for 40 meters, 2 phased verticals for 80 meters and 2 phased verticals on 160 meters plus a robust 4 station beverage system warrants a higher level of commitment from the DX community in general.

A dual rare Dxpediton like this warrants the same level of financial contribution as other recent major DXpeditions. We are all in financially at this point and need your assistance no matter what level of donation you can make.

So, please consider a generous contribution to this project. To have your club or organization's logo included with the QSL card, please contribute \$250 or more. Individual contributions of \$150 or more will be listed with the QSL card. All donors of \$25 or more will receive an early LoTW upload. Everyone who supports the Dxpediton will be listed and properly recognized on our website.

Our plans are moving forward in all aspects. We have just made our second installment of \$113,000 to the Braveheart. Next month, we will ship a container to Auckland, New Zealand where its contents will be loaded aboard the Braveheart in October. In March, we will ship our equipment home when the Braveheart arrives in Cape Town, South Africa. The shipping of our equipment is our second greatest cost behind the vessel charter.

We encourage you to visit our website <[www.intrepid-dx.com/vp8](http://www.intrepid-dx.com/vp8)> and donate via the PayPal link. It's easy and free to donate. Alternatively, you can mail a check or money order to the address listed below:

XU, CAMBODIA. Jarrad, VK3HXT, has recently received his XU7AGA callsign and has moved to Sihanoukville on Koh Rong Island to be with his brother. He has two HF radio - Icom IC-7200 HF/6M Transceiver and Yaesu FT-817ND QRP Transceiver (which he is currently using). At some stage in the future, he hopes to be able to offer visiting hams the chance to rent his Sihanoukville Shack, and provide advice (and equipment). QSL via VK3HXT. For more details and possible updates, see QRZ.com (under XU7AGA). ClubLog's OQRS is available and LoTW will be available soon.
