3DA0, SWAZILAND (Reminder). Braam, ZS6AYE, will once again be active as 3DA0AY from Bulembu, Swaziland. He informed OPDX a few weeks ago, "I am in and out of Swaziland, and I live 35 km from the border and work in Swaziland. I'm in the business of communications. I am getting everything ready for a DXpeditions that will start on July 18th to the 25th." Activity is on 40-10 meters using mainly the Digital modes (RTTY, JT65, PSK31). The radio is a Kenwood using 40-200 watts into vertical antennas. For mode and band requests, E-mails are welcome at 3da0ay@gmail.com. QSL via ZS6AYE or ClubLog's OQRS.

5N, NIGERIA. Martin, LW9DTR, will be active as 5N/LW9DTR from Ilobu town, south of Osogbo, in the Osun State, between August 7-8th. Activity will be on 20/15/10 meters using SSB and JT65. QSL via his home callsign direct.

8Q, MALDIVES (Update). A group of Polish operators will be active as 8Q7SP from Dhiffushi Island (AS-013) between November 20th and December 3rd. Operators mentioned are Ryszard/SP6FXY, Kris/SP6JIU, Roman/SP9FOW, Wlodek/SP6EQZ, Jan/SP3CYY and SP3FZN. Activity will be on various HF bands. QSL via SP6FXY, by the Bureau, LoTW or ClubLog's OQRS. For more

details and updates, visit their Web page (still under construction) at:
<http://www.8q7sp.dxing.pl>

CE0X, SAN FELIX. Felipe, CE5WQO, announced that there will be a DXpedition to San Felix Island (SA-013) next year, April 2017. He states, "What began as a 3 man effort earlier this summer has now become a 10 man effort, and all the operators are experienced DXpedition operators." Activity will be on 160/80/40/30/20/17/15/12/10/6 meters using CW, SSB and the Digital modes.

This will also include 6m EME. Look for more info to be forthcoming.

CQ NEWS.....

* (Press Release - Scott Rought, KA8SMA, Named CQ Magazine QRP Editor). Dated July 13th -- CQ magazine today announced the appointment of R. Scott Rought, KA8SMA, as the magazine's new QRP (low-power) Editor, effective with the August 2016 issue. Rought succeeds Dennis Lazar, W4DNN, who took the position on an interim basis a year ago.

A low-power devotee for more than 25 years, Rought has been a ham since 1983 and holds an Extra Class license (along with his original call sign!). He has operated almost exclusively QRP, on both phone and CW, since 2000, and describes the antennas at his Traverse City, Michigan home as "a spider web of wire strung between trees" as well as a roof-mounted homebrew 2-element beam for 20 meters. He previously wrote about his "QRP Superstation" in the April, 2012 issue of CQ.

Professionally, Rought is a project manager with an environmental consulting company in northern Michigan. He says, "I'm looking forward to providing a column that fellow hams will enjoy reading and that will entice QRO (high power) operators to give QRP a try." Rought's

inaugural

column in the August issue of CQ includes a "QRP guarantee" for high-power operators, including contesters, DXers and casual operators. The QRP column appears bi-monthly in CQ.

The August issue of CQ should be in print subscribers' mailboxes by the end of July and available to digital subscribers as of August 1.

* (Press Release -- New CQ World Wide DX Contest Director Restructures Contest Leadership). Dated July 16th -- Newly-appointed CQ World Wide DX Contest Director Doug Zwiebel, KR2Q, has announced a restructuring of the contest committee's leadership as his first formal act. Zwiebel is changing the director's position to a "triumverate," with Scott Robbins, W4PA, joining the committee and Bob Naumann, W5OV, re-joining the committee as co-directors. The change has the full support of CQ management.

"We will all share the various tasks of 'Director' and we all will provide backup or contingency coverage for each other for most, if not all, aspects of CQWW Committee leadership," explained Zwiebel, adding, "We are all equals."

Robbins and Naumann are both veteran contesters and are well-known in the amateur radio community. Robbins was Ten-Tec's Amateur Radio Product Manager for 12 years before purchasing the Vibroplex Company in 2009. Naumann - who previously served on the CQWW Contest Committee for 20 years - is Sales Manager of DX Engineering and worked previously for Array Solutions.

For additional details, see Zwiebel's complete announcement on the CQWW DX Contest blog at

<http://cqww.com/blog/restructuring-the-cqww-contest-committee-leadership/>.

REALTIME BAND CONDITIONS WEB SITE <http://www.bandconditions.com>:

The purpose of this experimental Web site is to provide 24-7-365 actual (REALTIME) band condition information to CW QRPp, QRPe and CW/SSB for Contesters interested in increasing their scores. It can also be of benefit to other Radio Amateurs to determine band conditions for Nets and casual QSO's. This information is NOT based on any software predictions or any kind of satellite based readings. It is based on a new Ionospheric sounding method called "HF Ionospheric Interferometry"

which operates very similarly to the PolSAR system used by NASA.

Z60A MAKES FIRST APPEARANCE IN THE IARU CONTEST (As a member!). Kim, OH6KZP, reports: This was the very first IARU contest for Kosovo's national radio amateur association "Shoqata e Radioamatorve t? Kosov?s" (SHRAK) as an IARU member society. The occasion called for celebration, and so local amateurs teamed up with an international group to generate an exciting first HQ station operation.

Three station sites in and around the capital Prishtina were used, including the University of Prishtina's Electrical Engineering Faculty club station Z64EEF, close to the heart of the city. We managed to keep 3-5 stations on the air at all times, with one site also extending its single tribander to several high bands simultaneously through triplexer technology.

Band conditions were poorer than hoped for, thus partially turning the contest into a European QSO Party. We enjoyed high rates nonetheless, and 10m and 15m provided nice ES openings. General activity levels also seemed pretty high, which is encouraging when faced with an approaching solar minimum.

On behalf of the non-Kosovar members of the team, I'd like to thank our Z6 hosts for all of their tireless efforts in making the Z60A HQ operation a success, and particularly for their warm hospitality. On a personal note, I'm very happy to have made so many new friends in a fascinating culture on my very first visit.

Also, thanks to all for the QSOs and for warmly welcoming a new IARU society to the international contesting scene! SHRAK will be back.
