2014 FD PACKETS AVAILABLE. The ARRL Web page announces that the 2014 Field Day (June 28-29th) packets are now available at:
<http://www.arrl.org/field-day>

3B9, RODRIGUES ISLAND. Just a reminder that Eric, OE4AAC, will once again be active as 3B9/OE4AAC from Rodrigues Island (AF-017) between February 10-18th. Activity will be holiday style on 40-10 meters CW. QSL via OE4AAC.

5B, CYPRUS. Rich, M5RIC, will be active as 5B/M5RIC from Cyprus (AS-004) between July 22-29th. Activity will include the RSGB IOTA Contest (July 26-27th) using the callsign C4I as a Single-Op/Mode-SSB/High-Power/24HRS entry. Outside of the contest, look for Rich on SSB and RTTY. QSL via MOOXO.

5V, TOGO (Update). Operators Phil/F5MVB and Joel/F5AOW are planning to be active as 5V7MP and 5V7BJ, respectively, from Avepozo between March 23-31st. Activity will be on CW and SSB. Details on bands have not been announced yet but will be forthcoming. QSL via their home callsigns,

direct or by the Bureau.

5X, UGANDA. Just a reminder that Alan, G3XAQ, will return to be active as 5X1XA from the capital city of Kampala between February 25th and March 16th. Activity will be CW only. He will also be in the RSGB Commonwealth Contest (March 8-9th). QSL 5X1XA via G3SWH.

7P, LESOTHO. Just a reminder that Ewald, DK3ID/OE8IDK, will be active as 7P8ID from Lesotho between February 11-16th. Activity will be on 40-6 meters SSB using 100 watts. QSL via DK3ID or OE8IDK direct.

6W, SENEGAL. Operators Nigel/G3TXF and Col/MM0NDX will be active as 6W/homecall from Le Calao this mid-February. Their tentative schedule is as follows:

February 14-17th - Nigel's (6W/G3TXF) activity will be mainly on CW on the 30/17/12 meter bands. He does plan to be in the ARRL DX CW Contest (February 15-16th). QSL via ClubLog's OQRS.

February 16-22nd - Col's (6W/MM0NDX) activity will be holiday style on 160-10 meters using SSB only. QSL via IW7EGQ <<http://iw7egq.jimdo.com/6w>>.

9J, ZAMBIA (Update). Members of the Italian DXpedition Team are planning to be active as 9J2T between February 28th and March 17th. Operators mentioned are Silvano/I2YSB, Vinicio/IK2CIO, Angelo/IK2CKR, Marcello/IK2DIA, Stefano/IK2HKT, Alfeo/I1HJT and Mac/JA3USA. Activity will be on all bands, 160-6 meters using all modes. Suggested frequencies are:

SSB - 3780, 7103, 14270, 18155, 21310, 24975 and 28420 kHz

RTTY - 14087 kHz

6m - 50102/CW and 50123/SSB

QSL via I2YSB, direct or by the Bureau. An OQRS will be available for direct QSL and LoTW at: <http://win.i2ysb.com/logonline/>

9X, RWANDA. Nick, G3RWF, will once again be active as 9X0NH from Rwanda between March 3-12th. Activity will be from Kigali on most HF bands and will be mainly CW with some SSB using K3 w/100 watts and wire antennas (Inverted V at about 40 Ft.). There will be no 160m, but he will be on 6 meters. Operations will include an entry in the RSGB Commonwealth Contest (March 8-9th). QSL via G3RWF. Nick states, "I use LoTW and do my own QSLing (prefer ClubLog)."

A3, TONGA (Update/Correction). Both Keith/GM4YXI and Chris/GM3WOJ/ZL1CT (GM2V, ZK2V, VK9CZ) will be active as A35X and A35V, respectively, from Tongatapu Island (OC-049) between April 4-18th. Activity will be on 160-10 meters using CW and SSB, with some RTTY. QSL both A35V and A35X via N3SL (not N3AL as mentioned last week). Look for more details and updates in the coming weeks at: <http://a35va35x.com>

C5, THE GAMBIA. Dom, M1TKA, will be active as C5/M1KTA from a beach sea front location in The Gambia between February 27th and March 10th. Activity will be holiday style on 20/17/15 meters operating QRP using CW, SSB and RTTY. He also may try 160m. Dom states, "On the last weekend between 12:00 UTC 8th and 12:00 UTC 9th March, unless you are in a BERU country I will likely ignore you please try another time." QSL via his home call sign or the LoTW. For more details and updates, see his Blog page at: <http://m1kta-qrp.blogspot.co.uk>

C5, THE GAMBIA. Pedro, ON7WP/C5WP, announced on QRZ.com that he and Andre, ON7YK/C5YK, are or will be the only two permanent licensed hams in The Gambia for 2014 (as of now). Pedro will be active between April 8-12th, from the village Buntu (where he does charity care -see QRZ.com), and has set up his permanent base station (Kenwood TS480, Kenwood TRC-80,

Yaesu FT897, a brand new 5 band Spiderbeam and a V-beam traveling wave antenna 2x120 meter. Activity should be on 80-6 meters using SSB and PSK. Outside these days, April 7-15th, Pedro will also be mobile on 21300 kHz. He has no grid power, only solar panels and a Chinese generator. Pedro also provided the following info [edited]: "After a 14 days round trip in The Gambia and Senegal now more than two years ago, I found out I was (according to African standards) incredibly rich and wanted to do something for the locals. So I gave my guide instructions to drive off the regular road into the Savanna and said the first village we would find, would give them some special sponsoring. So we ended in Buntu, where my wife sponsored a repair of a collapsing water well; we fixed a building that used to keep the grains safe from rains; we installed solar panels and donated two laptops to improve their English by watching movies on these. As a return gift, I was donated some land to build my own house, so we installed 4 small guest houses 'Kerr Pedro' to welcome future visitors-philanthropists. Everybody is invited to stay over for free as long as they bring aid goods along (clothes and educational stuff, or invest in projects, buy food and groceries on their way). Last visit, I installed a big 5 Band spider beam, my friend ON5OF sponsored a 2.2 kW generator so now one of the houses is a fully operational ham radio shack available for guest operators/philanthropists. I can assist obtaining temporary licenses in The Gambia and provide local transport and guiding using a jeep we also sponsored as part of our Charity project. There is a Kenwood TRC-80 radio available on site. The 3 dollars we ask for direct QSL goes directly into the development of the village Buntu. QSL cards are sponsored by Max, ON5UR, so most of this donation can be effectively used apart for the return postage. Any more info can be found on the <SmileGambia.org> website. In April, we go back to check if the active building project for a community hall that also can be used for school will be finished where we will also install satellite TV for further improvement of their English. The amateur radio station could also use a low weight amplifier to improve our signal so if anybody could help on this point making us better readable that would be most appreciated."

CE0Z, JUAN FERNANDEZ ISLAND. World Traveler/DXer Vladimir, UA4WHX, is now active as CE0Z/UA4WHX from Robinson Crusoe Island. As always, the length of his stay is unpredictable (He may be gone by the time you read this!). Activity has been on 80-10 meters using CW, SSB and RTTY. QSL via the info on QRZ.com.

FT5Z, AMSTERDAM ISLAND. The FT5ZM team continues for a few more days. It was announced by Ralph, K0IR (via Pilot Station NV9L), on February 3rd, "We will start taking down Antonelli on the morning of the 12th (our time). Mataf will function some during the 12th, but we will be QRT sometime on the 12th (our time)." It was also announced on February 5th, the FT5ZM team hit 100k QSOs. Remember that the FT5ZM log is now available on ClubLog at: <http://www.clublog.org/charts/?c=FT5ZM>

The breakdown as of as 1244z, February 9th, 152493/QSOs and 34165/Unique (Modes - 86036/CW, 57974/SSB and 8483/RTTY). By Continent: 1248/AF, 18/AN, 33890/AS, 75496/EU, 37899/NA, 2506/OC and 1436/SA.

QSL via N2OO. The FT5ZM QSL processing order is as follows:

- a.QQRS DIRECT (via ClubLog)
- b.DIRECT MAIL
- c.QQRS bureau (via ClubLog)
- d.Regular incoming BUREAU

R25, RUSSIA (Special Event). Look for special event station R25AFG to be active until February 28th. Activity is to mark the 25th anniversary of the Soviet Union's withdrawal from Afghanistan. Activity has been on 80-10 meters using CW, SSB and the Digital modes. QSL via UA4AJD, by the Bureau or direct. More details, an online log and OQRS are available at: <http://r25afg.cqvlz.ru/en>

RN22, RUSSIA. Andrey, R9XC, will be active with the special callsign RN22OG during the CQWW WPX RTTY Contest (February 8-9th) as a Single-Op entry. QSL via R9XC. The special event station is for the 22nd Olympic Winter Games in Russia. Website: <http://ok2014.ru>

SX1, GREECE. Operators Vassilis/SV1CNS, Ioannis/SV1EIW, Michalis/SV1ONV, Nikos/SV1EIG, John/SV1ONK and other friends, will be active as SX1AA from Artemida (KM17XX) during the CQWW 160M SSB Contest (February 21-23rd) as a Multi-Op/High-Power entry. QSL via SV1CNS (direct) or SV1QXU (by the Bureau). See QRZ.com for details or <<http://www.qsl.net/sv1cns>>.

TC10, TURKEY. The members of the TCSWAT (Special Wireless Activity Team) will be celebrating their 10th anniversary by using the special callsign TC10SWAT throughout 2014. They will be issuing a new award for this activity. Stations will need to make a minimum of 8 contacts on different bands and/or modes to win the golden award. Contacts on 7 different bands and/or modes will earn the silver award, and on 6 different bands and/or modes will get a bronze award. In addition, special awards will be issued to stations working the highest number of bands on each mode, and the highest number of modes on each band. However, there will be only one winner for each of these awards. If there is more than one station with equal number of points for a specific band or mode award, the station with the highest number of QSOs will get the award. The TCSWAT QSL policy is "QSL 100% via the Bureau", so please DO NOT HURRY and send a direct request! The cards will be printed in January 2015, so even if you send a direct request you will have to wait. TCSWAT will definitely send out your QSL card to your Bureau, usually around June or July, most probable delivery during Friedrichshafen Messe. They are using <www.eqsl.cc> and all the logs will be uploaded to LoTW at the end of activity. ADDED NOTE: Read about the TCSWAT history under "Additional Bulletin" below.

TK, ICELAND. Robert, KT1K, will be active as TF/KT1K during the ARRL DX SSB Contest (March 1-2nd) as a Single-Op/Low-Bands entry. QSL via KT1K.

TO4/FM, MARTINIQUE. Just a reminder that XYL Françoise, F4BMR, will join OM Yves, F5GN, who is now active as FM/F5GN on Martinique, as TO4YL between February 8-24th. Activity will be on 160-10 meters. QSNs show that Yves has been on 20/15/10 meters SSB this past week. QSL via F5GN.

TX6, AUSTRAL ISLANDS (Update/Press Release #2). A group of six operators from the UK will operate as TX6G from the Island of Raivavae in the Australs (OC-114) between March 20th and April 1st. The following press release was sent out on February 7th: "We are pleased to say that we now have a callsign for our DXpedition to the Australs. It is TX6G. All preparations are going well at this time. We will be operating on CW, SSB and RTTY. We do not plan PSK operation. We are aware that other expeditions will be operating at the same time, so we are not publishing specific operating frequencies in advance □ tune the bands or keep an eye on the Cluster to find us.

We have been asked several specific questions about operating objectives and plans. Our priority will be to exploit openings to Europe when they are available but we will also ensure that we cover South America, VK/ZL, etc. We should be able to work JA and W/VE for many hours each day so there will be plenty of opportunity for a QSO from those regions. We will not be operating in the CQ WPX SSB contest, but will use that weekend to

maximize QSOs on the WARC bands and on CW and RTTY on 80m through 10m.

We will operate nine bands 160m through 10m. No 6m or 60m activity is planned. 160m and 80m will share an antenna, so we expect to alternate operation on those two bands, largely depending on band conditions.

Last but by no means least, we now have a website up and running at <www.tx6g.com> where we will post news and updates and where, in due course, you will find a link to Club Log to check the log and make online QSL requests..... Don Field, G3XTT <don.field-at-gmail.com>"

V3, BELIZE. Torsten, DG7RO, is once again active as V31TF, from Corozal until February 18th. Activity will be on 160-10 meters, including the 30/17/12m bands using SSB and RTTY. There is a possibility that he will enter the CQ WPX RTTY Contest (February 8-9th). QSL via his home callsign.

V5, NAMIBIA. Operators Werner/DC8QT, Georg/DD8ZX and Klaus/DJ9KM are now active as V5/homecall from near Omaruru (JG88ds), some 250km northwest of Windhoek, until February 12th. Goerg informs OPDX that activity will be on holiday style on 160-6 meters using SSB, RTTY and PSK. QSL via their home callsigns.

V650, MICRONESIA (Update). Haru, JA1XGI, plans to celebrate his 50th anniversary in amateur radio by using the special callsign V650XG from Pohnpei (OC-010) between May 9-15th. Haru informs OPDX that his activity will be on 40-10 meters, including the 30/17/12m, using CW, SSB and RTTY. He will also look for DX on 6 meters. Suggested frequencies are:

CW - 7025, 10105, 14015, 18080, 21015, 24895 and 28015 kHz

SSB - 7145, 14175, 18135, 21260, 24940 and 28450 kHz

RTTY - 7030, 10140, 14088, 18102, 21088, 24920 and 28088 kHz

QSL via his home callsign, direct or by the Bureau. An OQRS will be available on ClubLog. For more details and updates, visit his Web page or Blog at: <http://island.geocities.jp/v63xg/index.htm>

ADDED NOTE: Haru is also expected to return December 1st to Chuuk Island (OC-011). Details will be forthcoming.

VH0H, HEARD ISLAND (Postponed Again!). In a press release dated February 1st, it was announced that the Heard DXpedition will take "in early 2016". This DXpedition which was originally scheduled for January 2014, and then postponed/moved to January 2015. The press release labeled "Project Description v 2.3 for the 2016 Heard Island Expedition" can be found at:

http://www.heardisland.org/HD_pages/HD_News.html

Read PDF file: HE_News_Release_00.1_Background (dated 2/1/2014)

This revised version was developed after the meeting between Expedition Organizer/Leader Robert Schmieder and officials at the Australian Antarctic Division (AAD) in November, 2013. Excerpts from the release states, "The team of 35 biologists, volcanologists, glaciologists, communications specialists, and filmmakers will scale the 9000-foot-high volcano, turn over rocks, sample the snow and ice, probe glacial lagoons, and search the soil and water across this extraordinary 20-mile-long island..... To reach Heard Island, the expedition will assemble in Cape Town, South Africa, and board the Belgian vessel 'Cmdr. Fourcault' for the 10-day voyage to the island. Once onsite, a helicopter will lift the team and equipment onto the island, and then stand by for the 30-day stay." It was also mentioned, "We are in the process of building the team. Currently the communications team is almost complete, so now we will be developing the scientific team, the group that will search for unknown species. Concurrently, we are beginning to make contacts for major sponsorship."

VP9, BERMUDA. Kurt, W6PH, will once again be active as VP9/W6PH for the 2014 ARRL DX CW Contest (February 15-16th) as a Single-Op/All-Band/Low-Power entry. QSL direct to his home callsign W6PH.

XW, LAOS. Champ, E21EIC, informs OPDX, "I will operate as XW0YJY in 2014

until June 30, 2014" which probably means his license expires on that date. However, he states that his next trip will be between February 13-18th. Activity will be on 160-6 meters, with the focus on 17m, using modes CW, SSB and RTTY. Champ will also be in the ARRL DX CW Contest (February 15-16th). He prefers QSL requests via ClubLog's OQRS, as well as direct or by the Bureau via E21EIC. Champ will upload the log to LoTW after his trip.

YJ, VANUATA (Update). Operators Bill/N7OU and Rocky/NE7D will be active as YJ0OU and YJ0ZZ from Port Vila, Vanuatu, between February 11-25th. Activity will be on 160-10 meters using CW. They will be using verticals on a north-facing shore and 500w amps. They mention that they like the challenge of difficult paths and promise not to forget northwestern Europe. Also, they will be a Multi-Single entry in the ARRL International DX CW Contest (February 15-16th) signing YJ0OU. QSL via their home call-signs. Logs will be uploaded to LoTW as soon as they return to the USA.

YN, NICARAGUA. Scott, K7ZO, will once again be active as YN5Z during the ARRL DX SSB Contest (March 1-2nd) as a Single-Op/All-Band/High-Power entry. He will operate "Field Day Style" using a Spiderbeam (20-10m) and a vertical for 160-40m. The radio is a TS-590 driving a KPA-500 amp. QSL via LoTW and K7ZO, direct or by the Bureau. Look for Scott to be active before the contest as well.

ZL7, CHATHAM ISLAND (Update). Sandro, VE7NY, has announced an update on the international team going to Chatham Island as ZL7AAA between March 20th and April 1st. Operators mentioned are Franz/OE2SNL, Sandro/VE7NY, Graham/ZL1GMB and Barry/ZS1FJ. Activity will be on all HF bands using CW, SSB and RTTY. QSL are via VE7NY. The ZL7AAA Web site is still under construction at: <http://www.qsl.net/zl7aaa>

TCSWAT HISTORY (by Tevfik Aydin KAZANCIUGLU, TA1HZ (T5TC/ZA1TC/ex-TB1CAK)).

It all started in August 2004 when a small group of Turkish hams travelled to Sile Lighthouse to work as TC2LHS. All together 55 contacts were made during the Lighthouse Weekend, but it was the beginning. Year after year, season after season, they started to get new callsigns with the TC prefix, with one exception for the 90th anniversary of Turkish National Assembly, TB90MM. Even when they travelled out of Turkey for a new DXCC, they had the TC in the callsign- ZA1TC (Albania Durres) & T5TC (Somalia Mogadishu). Always looking forward to bring in young breath to the hobby, they encouraged new beginners to all aspects of the hobby, but they did not forget those SKs who gave them valuable advice when TCSWAT founders were new to the hobby - TC2J - TC2BK - TC1BW. They were on the air from the field as TC57A, TC9SAM; on the air from the historical lighthouses (too many to cite here); on the air from European Capital of Culture 2010-Istanbul as TC2010CCA/CCE/CCI and others. Together with some of the well-known DXers and contesters, they put the TC prefix into contest lists, such as TC4X , TC2X, TC2C. As a part of their activity ,they are also chasing DXCC while giving out a new one or a new band slot to others on different parts of the world. With TC57A, they earned 'the first DXCC Award for a special prefix from TA'."
