13 COLONIES (Special Event). Once again the annual "13 Colonies Special Event" will take place between 1300z, July 1st and 0400z July 7th. The theme for 2014 will be "Revolution War Era Colonial Currency". The certificate is printed on heavy card stock. Stations working one state or, as many as all 13, will be eligible for the certificate. A "Clean Sweep" indicator will be affixed, for those lucky enough to "Q" all 13. A special endorsement will be attached for stations contacting their sister operation, WM3PEN, in Philadelphia, PA, where independence was declared. New for 2014, the 13 Colonies have added a second sister event station W3FT from Baltimore, MD, commemorating the writing of our Nation Anthem, "The Star Spangled Banner in 1814". The 13 Colonies certificate will have a Liberty Bell added for a contact with WM3PEN, and a W3FT contact will have a special 15 star 1812 US flag of the period added to the 13 Colonies certificate. They will also offer a special QSL card printed just for this event. There should be at least two stations from each on the 13 colonies on the air, as well as Super contest stations, multi-operator Club stations and OM and XYL teams. The U.S. original 13 colonies are CT-DE- GA-MA-MD-NC-NH-NJ-NY-PA-RI-SC-VA. Special events stations mentioned are: K2A (NY), K2B (VA), K2C (RI), K2D (CT), K2E (DE), K2F (MD), K2G (GA),

K2H (MA), K2I (NJ), K2J (NC), K2K (NH), K2L (SC), K2M (PA) and WM3PEN. All HF bands will be in play except the WARC bands and 60 meters. 2 meters and 6 meter simplex are encouraged. All modes of operation should be represented - SSB, CW, RTTY, Digital, and the Satellites. The mode of operation is up to the individual colony state station. For more details on the stations, suggested frequencies, QSL info and on how to obtain the special certificate, see: <http://www.13colonies.info>

5R, MADAGASCAR (IOTA DXpedition). [Edited excerpts from PRESS RELEASE #1] Nosy Be means "big island" in the Malagasy language and Nosy Be, not far, from the mother island Madagascar, will be the next destination of the Mediterraneo International DX Club (MDXC) Team! Look for leader Antonio, IZ8CCW, and the co-leader Gabriele, I2VGW, to head-up a team of operators to be active as 5R8M from Nosy Be Island (AF-057), thanks from the help of a local friend, Michele, 5R8UI, between October 20th and November 4th. Activity will take place during 16 days and 14 nights. According to their evaluations, they are confident to give a lot of DXers a chance to work this country (and IOTA) on the Lower Bands, 30/17/12m and especially on the Digital modes. The 16 operators will be an international team from countries. Currently, the operators listed are:

CW - Eric/ON7RN, Feri/YO5OED and Karl/OE3JAG

SSB - Ant/IZ8CCW (Leader), Michel/F5EOT, Steve/IZ5GST and Michele/IK5ZUI

RTTY - Gabriele/I2VGW (Co-Leader), Marco/IZ2GNW, YL Manu/IZ8IYL, Mario/IK4MTK and Henri/F1HRE

Pilot Stations - Don/N1DG (USA), Rino/IK7JTF (Europe) and Sergio/IK0FTA (6m pilot)

QSL Manager is Giuliano, IK2VUC, for direct or Bureau QSLs. However, there will be an OQRS available on the Web page below. LoTW files will be uploaded by the end of May 2015.

Activity will be on 160-6 meters using CW, SSB and RTTY. They plan to have four stations on the air around the clock using dipoles, Inverted L, verticals and Spiderbeams. For more details and updates, visit the 5R8M Web page at: <http://www.mdx.org/5r8m>

The team is looking for sponsors and funds/donations.

6Y, JAMAICA. Lali, VE3NE, will be in Jamaica for the IARU HF World Championship (July 12-13th) using the callsign 6Y3M. He states, "This time my wife, Agnes (ex-HG9MAT) will join me, and we will be in Multi-Single category. She is a bit rusty but we are practicing using VE3NEA's pile up trainer to bring her speed up. Go easy on her though...:-) We are not going to win, but I am very excited because this is the first time we are entering into a contest as a team." Lali and his XYL will be in Jamaica from July 11-14th. QSL via VE3NE.

CY0, SABLE ISLAND (Press Release/Update). [edited] "Operators Murray/WA4DAN, Randy/NOTG, and Gary/VE1RGB will return to Sable Island for a one-day DXpedition scheduled for September 8th, 2014. They will be using the Sable Island Amateur Radio Station that Murray and the CY0P team left behind after their operation as CY0P in October 2013. Murray will be QRV on SSB and Randy will operate CW. Antennas are expected to be 17m and 20m Yagis. Trip planning and logistics support are being provided by Gary, VE1RGB, who has been the logistics coordinator for three previous CY0 ventures and was an operator at CY0P. On this trip, Gary does not plan to operate but will instead be providing technical and operational support to Murray and Randy, and to the Sable Island ARS. Gary will be the QSL manager for CY0C. As usual, travel will be via Maritime Air Charter using their Britten-Norman Islander. Hours of operation will be limited by the requirement to fly during daylight hours. With luck, the DXpedition will operate from approximately 1300Z to 2100Z on September 8th. Check the various DX bulletins for any changes to the date of operation due to weather, etc." Also, watch: <http://www.cy0dxpedition.com>
