CY0, SABLE ISLAND (Press Releases/Updates). [edited] Here is the latest updates on the CY0C DXpedition scheduled for September 8th:
August 31st -- "The CY0C DXpedition team received some promising news from Aaron Carpenter, the Operations Coordinator for Parks Canada-Sable Island. Aaron reported to the team on Tuesday that Sable Island did receive beneficial rains on Monday, September 1. He advised the aircraft landing area is sufficiently firm and packed to allow normal flight operations. As a reminder, with any flights to Sable Island, VFR conditions are required at both Halifax and Sable Island. There is no runway or lights to mark the landing area on the island. Now we must hope for good VFR flying weather on Monday. Continue to check <www.cy0dxpedition.com> for the latest information."

September 6th -- "Everything continues to look good for the CY0C one-day DXpedition on Monday, September 8. The team has received frequent updates from Parks Canada and Maritime Air Charter. As of Saturday morning, September 6, the landing area on Sable Island is a GO. The weather forecast looks favorable at this point. The team will arrive at the Maritime Air Charter hanger at 1030Z on Monday morning. A weigh-in of the three operators and the DXpedition gear will be performed at that time. During this time, Aaron Carpenter of Parks Canada-Sable Island will be conducting the final check of the runway and will confirm if cross-winds are an issue. Aaron will report to Maritime Air and a final decision will be made as to suitability to fly. The CY0C team is very appreciative to Parks Canada and Maritime Air Charter in helping to make this challenging

DXpedition possible..... 73, Murray Adams, WA4DAN"

SPECIAL EVENT (Highway to a DX Party!). The Citrus Belt Amateur Radio Club of San Bernardino, California, will once again host (probably one of the most fun special event activities) the 15th annual "Route 66 On The Air" special event between September 6-14th. SV8/SW8, GREECE (IOTA Op). Gabi, HA1YA, will join Laci, HA0HW (SW8WW), on Thassos Island (EU-174), Greece, on September 16th, and will operate as SV8/HA1YA mostly on 6 and 2 meters with his IC-9100 and delta loop on 6m and 9 element yagi on 2m. There will be some operations on the HF bands expected as well. On September 24th, Gabi and his family will be moving down to Limnos Island (EU-049) and will stay there for a few more days (until October 1st) to try to find a good VHF QTH for his next operation during the 2015 summer.

TZ6BB QRT. Fernando, EA4BB/TZ6BB, informs OPDX: "I have been reassigned to Nigeria and I will go there next Monday (9/8/2014). I was kind of expecting this, though not so soon. This means, unfortunately, that TZ6BB will go QRT on Sunday evening (9/7/2014). I will still come back to Mali by mid November or so, for a few days, but my task then will be to dismantle the station, pack up all my things and then return to 5N land to stay. I will of course do my best to be on the air from there, but I need first to sort a license, QTH, station etc. Not sure how long that is going to take but I'm afraid it won't happen overnight. I am leaving some of my radio equipment (including a nice HF transceiver) behind, here in Mali, as a little present to a local ham in the hope he will keep Mali active on the bands in the future. Let's see what happens."

V5, NAMIBIA. Sebastian, OE3SZA, will be active as V5/OE3SZA from Namibia between October 29th and November 11th. Activity will be SSB only running QRP with an Yaesu FT-817. QSL via OE3SZA, direct or by the OEVSU Bureau.
