You can download a full color copy from the Twin Cities DX Association (TCDXA) Web site. Select the March 2015 issue of the "Gray Line Report" from here:

<http://www.tcdxa.org/Newsletters/March2015Grayline.pdf>

Glenn's article is going to give you the complete story, showing that you don't simply pack up a bunch of equipment and set sail to a distant DX location. DXpeditions of this scale take professional levels of planning, negotiations, and execution during every step of the way.

P5, NORTH KOREA (Press Release #1). Col, MM0NDX, posted the following on March 10th [edited]: On February 28th, <DX-World.net> broke the news that Dom 3Z9DX had written permission to operate amateur radio from a VERY wanted DXCC entity. Today, we can reveal that entity is North Korea (P5).

Dom 3Z9DX explains he has received a further letter from authorities in Pyongyang inviting him to a final meeting to discuss [and for him to accept] rules by the North Korean military and the relevant telecommunications department.

This meeting will take place in December with activity planned for January or February 2016.

According to P5 telecoms, Dom will be permitted only three bands (20-15-10) likely using a multiband vertical from a secured place in Pyongyang with two government supervisors over-looking 24/7. Activity will last for 5 days.

At the moment this is a solo expedition to the #1 Most wanted entity using SSB only. He is working hard behind the scenes to get one more op (CW) to join him.

Please realize this project is a work in progress and to understand that it may only be Dom who operates from North Korea. There will be more updates and a website throughout 2015. Any questions via Press Officer, Col MMONDX..... 73 Col MMONDX for P5-2016 Project by 3Z9DX.

INTERESTING ENTITY AIRED (Possible New One??). Scotty, WK3N, informs OPDX just before going to print [edited]: "A non issued callsign being used today, March 15, 2015, on 15 and 12 meters is DOB. Claiming to be in Donetsk People Republic. Does such a place really exist? The answer is yes. Check Wikipedia at:

http://en.wikipedia.org/wiki/Donetsk_People%27s_Republic

The Donetsk People's Republic (DPR or DNR) is an unrecognized state and a rebel group based in the Donetsk oblast of Ukraine, where it controls territory. Will it ever become a ARRL entity? Not very likely. No QSL manager yet to be announced. WFWL = Work First - Worry Later!"

PJ7, ST. MAARTEN. Kevin, K4BDR, will be active as PJ7/K4BDR from St. Maarten between April 12-17th. Activity will be on 40-10 meters using SSB and Digital modes. This will be a portable, solar and backpack operation. QSL via LoTW.

REALTIME BAND CONDITIONS WEB SITE <<http://www.bandconditions.com>>:

The purpose of this experimental Web site is to provide 24-7-365 actual (REALTIME) band condition information to CW QRPp, QRPe and CW/SSB for Contesters interested in increasing their scores. It can also be of benefit to other Radio Amateurs to determine band conditions for Nets and casual QSO's. This information is NOT based on any software predictions or any kind of satellite based readings. It is based on a new Ionospheric sounding method called "HF Ionospheric Interferometry" which operates very similarly to the PolSAR system used by NASA.
