CY9C, ST. PAUL ISLAND DXPEDITION (Update). The following update was posted on the CY9C Web page on November 9th [edited]: As 2016 quickly approaches, focus on DXpedition planning details intensifies. All is going very well as we continue to develop the operating plan, site plan, and plans for getting equipment and personnel onto the island. We thank the many that have responded to the "NEED" SURVEY on the website. (ed. See the following at:

<http://www.cy9dexpedition.com/need-survey.html> )

A serious effort is being planned to address those specific needs --

The other matter is financial planning. In the relatively near future we'll need to secure the transportation to the island. Those that have donated are listed on the Sponsor's list on the Web page at:

<http://www.cy9dexpedition.com/news--sponsors.html>

No amount is too small; all who donate will receive a QSL automatically without having to request one. The team is fully committed and investing significantly; your financial support will help and is appreciated more than words can express.

The single most expensive item is the cost for the transportation to access the island. Donations can be made via this link:

<http://www.cy9dexpedition.com/donate.html>

(If desired, more details / info on this matter, contact: N0TG - E-mail address per QRZ.com).

DXERS BE AWARE!!! (DXpeditioners are getting fed-up) For those who plan on working the VK9WA Willis Island and the possible P5CW (by Rick/K6VVA), "PLEASE TAKE NOTE" of Paul's, N6PSE, latest blog post at:

DX MAGAZINE'S MOST WANTED SURVEY COME TO AN END. Carl Smith, N4AA, editor of QRZ DX and the DX Magazine, announced this past week [edited]: "For the past few years I have been comparing the DX Magazine survey results with the one available from Michael Wells, G7VJR, on his ClubLog Web site <https://secure.clublog.org>. I should note here that Michael was inducted into the CQ DX Hall of Fame in May 2015 honoring him for his service to the DX community. The two results have consistently closely paralleled each other. After serious consideration, it seemed to me that the ClubLog's Most Wanted information would adequately serve the DX community. The one conducted by The DX Magazine would not offer enough difference to justify the cost in time, or money, for it to continue. I want to thank the thousands of DXers, world-wide, who have supported The DX Magazine survey for the past 25 years. You have provided your fellow DXers with a valuable tool and I believe I can speak for at least most of them in saying THANK YOU. The DX Magazine <http://www.dxpub.net/DX-Magazine.html> will continue to provide DXers with the stories of DXpeditioners traveling to the far reaches of the earth to provide you with those cherished contacts from rare and exotic places. I want to encourage the organizers/leaders of those DXpeditions to continue offering their stories. By telling others, who, what, where, when and how you made that operation possible, the story can be the final chapter of the DXpedition. It might also inspire others to make the effort to organize their own DXpedition, or to at least make a donation to the next major DXpedition."

OPDX EDITOR'S COMMENTS: I have known Carl for many years and would like to personally thank him for his hard work and many years of putting the "Most Wanted Survey List" together each year. It will surely be missed...

Bruno states, "The flights and accommodations are booked to STP. The license was orally granted, but have to be picked up personally upon arrival. This will be a one man - Holiday-style DXpedition. Arriving at STP February 25th and leaving March 25th. If possible, I will stay another 14 days, but this is not granted yet. Expect me to be active on all bands from 40-10m mainly on SSB and on the Digital modes. As I am a very poor CW operator, I will not annoy the DX community with my bad CW.... Rig will be an ICOM IC7200, Jumla 1KW amplifier (if the Finnish OM's are able to deliver one on time), with an antenna dipole for 40m and a fold-able antenna for the bands 20-10m. Hope that everything will be running smooth and that I am able to contact a lot of stations on the air from STP." QSL via his home callsign.

V4, ST. KITTS (NA-104). Andy, N2NT, will once again be active as V47NT from the QTH of V47KP between November 23-30th. Activity will include the CQWW DX CW Contest (November 28-29th) signing as V47T and as a Single-Op/All-Band/High-Power entry. QSL via W2RQ.

VK9WA WILLIS ISLAND DXPEDITION NEWS (Update/Reminder). The international team of operators are now active as VK9WA from Willis Islets until November 23rd. The on-air operations will last 10 days with high power on CW, SSB, and RTTY on 160-10 meters (possibly 6 meters). Their primary focus will be providing all time new contacts with this highly demanded, rarely activated entity with an emphasis on difficult paths - primarily US East Coast, Europe, and Africa. QSL via N7SMI, direct or by the Bureau. Use ClubLog's QORS for direct or Bureau QSLs is STRONGLY RECOMMENDED. QSL cards will be a beautiful full-color photo. QSLing priority is listed on their Web page. ClubLog's QORS will be available shortly after the conclusion of the DXpedition. All QSOs will be uploaded to LoTW and eQSL shortly after the operation. Complete details can be found on their Web page <http://vk9wa.com>. PLEASE NOTE: READ ABOVE - "DXERS BE AWARE!!!"

YASME PRESS RELEASE (Date November 13th). The Yasme Excellence Award is presented to those who, through their own service, creativity, effort and dedication, have made a significant contribution to amateur radio. The contribution may be in recognition of technical, operating or organizational achievement, as all three are necessary for amateur radio to grow and prosper.
