3XY, GUINEA (IOTA Op). Operators Alain/F5OZC and Sebastien/F8DQZ will once again be active as 3XY3D from Kassa Island (AF-051), Los Islands (Iles de Los), between November 1-30th. Activity will be on 40-10 meters using mainly CW. QSL via F5OZC, by the REF Bureau or direct (no eQSL, no LoTW).

3Y0Z BOUVET PRESS RELEASE (dated July 30th). Ralph, K0IR, sent out the following, stating "This is a great example of how the ham radio community can cooperate and work together for the common good of all." : As in any group, the moral compass, accountability, and integrity of amateur radio operators covers a wide spectrum. The best of these character qualities in the ham radio community came to light last week.

FlexRadio Systems and Ranko Boka, 403A, of SKY SAT wanted to be absolutely

positive that they would in no way compromise the success of the Bouvet Island DXpedition. They looked at this DXpedition as a once in a lifetime experience for many DX'ers and put the success of 3Y0Z above personal gain, competition, and acclaim.

FlexRadio Systems and SKY SAT were concerned that: a.) Parts availability for production of the FlexRadio amplifiers may be a problem. b.) Sending a total of 14 amplifiers to Bouvet would cut into inventory they had promised to their customers. c.) Meeting our shipping date might compromise their testing and quality control.

We will take several new FlexRadio Power Genius XL amplifiers to Bouvet. However, FlexRadio and Ranko reached out personally to ACOM to assist in supporting 3Y0Z. On short notice, and within 24 hours, ACOM agreed to help make the Bouvet DXpedition the best that it can be and agreed to provide 12 ACOM 1500 amplifiers.

ACOM, FlexRadio Systems, and SKY SAT/403A put aside personal gain and competition and worked together to help the Bouvet Island DXpedition be a better experience for you the DX'ers. These are truly quality people.

3Y0Z BOUVET PRESS RELEASE (dated August 5th). The Northern California DX Foundation is pleased to announce a contribution of \$100,000 to the 3Y0Z Bouvet Island DXpedition planned for January 2018. Bouvet is #2 on the ClubLog Most Wanted List. This is the largest contribution in the history of NCDXF.

In 2016, NCDXF-sponsored DXpeditions activated five of the ten most-needed entities. These DXpeditions put 457,000 QSOs into DXers' logs. That year we spent \$156,000 to fund these and other DXpeditions. The 3Y0Z DXpedition to Bouvet Island early next year is likely to be one of the most expensive DXpeditions ever attempted - estimated at over \$740,000. The 20 team members have already contributed just over half of this amount.

[www.bouvetdx.org](http://www.bouvetdx.org) has details of the 3Y0Z Bouvet DXpedition.

DXpeditions to rare entities like Bouvet and others in the Southern Ocean are becoming more expensive, a trend that we believe will continue.

NCDXF's primary purpose is to help fund well-organized DXpeditions to rare, difficult and expensive entities, like Bouvet. During the last 45 years, NCDXF has granted over \$1 million to hundreds of DXpeditions - helping to put an "all-time-new-one" (ATNO) in the log and make DX happen for thousands of DXers worldwide. The credit for these large grants goes to the NCDXF contributors, individuals and clubs who support the DX community. Without those contributions, DXpeditions to entities like Bouvet or other rare locations would not be possible.

If you agree with the importance of NCDXF's work, and if you are not a current contributor, we hope you will become one today by clicking here [http://ncdxf.org/pages/join\\_renew.html](http://ncdxf.org/pages/join_renew.html). Your contribution will continue to

help make DX happen. You can also support future DXpeditions by including the

NCDXF Cycle 25 Fund in your estate plan

<http://ncdxf.org/pages/estate.html>.

We wish the 3Y0Z team a safe and very successful trip to Bouvet Island next year.

5H, TANZANIA. Chas, NK80/VE3ISD, will once again be active as 5H3DX from Zinga, Tanzania, between November 7th and December 4th. Activity will be from the pediatric hospital at Zinga. Usual operations will be holiday

style. Power output will be the legal limit for Tanzania at 100w and the primary antenna should be a Hexbeam configured for 40-6 meters, including the WARC bands. Operations will be primarily CW. He states that he will use a simple wire antenna and his KX3 with a KXPA100 amp. See QSL info on QRZ.com. Also, QSL via LoTW and eQSL. NO Bureau.

8P, BARBADOS. Mac, WT4BT, will be active as 8P9MT from "New Moon Villa" in "Upper Carlton" area near Gibbes Beach on Barbados Island (NA-021) between November 4-10th. Activity will be on various HF bands. QSL via his home callsign, direct, by the Bureau or LoTW.

9X, RWANDA. Alan, KE4TA, will be active as 9X0TA from Kigali for a 3 year period sometime early August. This will be his first 'DXpedition'. Activity will be primarily on 20/17 meters using 600W/100W of power. He does have antennas or antenna+tuner combinations for 80-10 meters and 6m. Modes will be SSB, the Digital modes and some CW. Power may be restricted by the Rwandan authorities in accordance with their laws. Radio is a Yaesu FT-991, and antenna will be a Hexbeam on a push up tower. Alan, states, "Noise levels here are extremely high. Please don't be offended if I'm not answering your call, I likely can't hear you." QSL via DIRECT to N4GNR. He will also use LoTW. CQ MAGAZINE NEWS (Press Release - 2017 Young Ham of the Year). It was announced on August 1st [edited]: Marty Sullaway, KC1CWF, of Newton, MA, has been selected as the 2017 Bill Pasternak WA6ITF Memorial Amateur Radio Newline Young Ham of the Year. Marty, 15, is the son of Robert David Sullaway and Gail Cheryl Schulman.

Marty was first licensed as a Technician in November 2014. He quickly worked his way to General earning his ticket in February 2015. He became an Extra Class operator this past February.

Marty is co-founder of the Eastern Massachusetts Contesting Club and trustee of its call sign KR1DX. Marty created the club to get more young people involved in amateur radio in the suburban Boston area. He has helped teach and mentor many young people, sparking interest in HF contesting. Marty is a member of the Yankee Clipper Contest Club and very active in the contest community. He currently serves on the American Radio Relay League Contest Advisory Committee.

KC1CWF's efforts in contesting have netted many accolades including the 2015 CQWW SSB USA "Rookie" plaque. His score of 1,312,305 operating from K1VR still stands as the CQWW rookie record.

Marty also is QSL manager for VY1AAA, X01X, and CI1AAA operated by the Yukon Canam Contest Club. Marty is also board member of the Clay Center Amateur Radio Club which promotes amateur radio at the Dexter/Southfield School in Brookline, MA. He has been involved in the club's Field Day planning and has assisted with antenna and HF station design, as well as repeater operations.

He started a podcast called "The Phasing Line" and, along with Sterling Coffey, N0SSC, discusses topics such as home-brew antennas, contesting, and activities of youth in amateur radio.

Marty appeared at the 2016 Dayton Hamvention Youth Forum where gave a presentation: "Homebrewing Fun: Making Your Own Gear for Contest Stations." He appears on the W5KUB "Amateur Radio Roundtable" webcast and even serves as a back-up studio when technical issues arise.

Marty enjoys the technical aspects of the hobby, designing and building systems for remote amateur station operation and enjoys computer programming. Marty also is involved in amateur radio public service activities, including serving as a net control operator for the Boston Marathon.

He is also the owner of his own consulting company "Newtown Mass Tech,"

where he handles such tasks as home computer installation to VOIP connections for clients throughout the Boston area.

Marty is entering his sophomore year at Meridian Academy in Jamaica Plain, Massachusetts this fall where he has been active in the Model United Nations program for four years and has earned multiple awards, including best delegate. Marty is currently vice president of his United Synagogue Youth chapter and is involved in an Israeli folk dance group.

His nominator, Joe Eisenberg, K0NEB, described Marty as an "extraordinary young man." "Marty has accomplished things at age 15 that many hams take years to do. And, he is only beginning."

Marty will be recognized during the Huntsville Hamfest on Aug. 19th in the Von Braun Center, Huntsville Alabama.

The Young Ham of the Year Award was inaugurated by William Pasternak, WA6ITF, in 1986. Upon his passing in 2015, Bill's name was added to the award as a memorial to his commitment to recognizing the accomplishments of young people to the amateur radio service.

In addition the Amateur Radio Newsline, CQ magazine and Yaesu USA are primary sponsors, along with Heil Sound Ltd. and Radiowavz Antenna Company.

HD8, GALAPAGOS ISLANDS (Postponed). Geoff, G8OFQ, announced, "Unfortunately, due to circumstances beyond my control, the DXpedition to HC8 has been postponed". He was expected to be active from Isabel Island (SA-004) between August 1st and October 31st, as HC8/G8OFQ.

INDEXA NEWS. John Scott, K8YC, INDEXA VP and Editor, announces the 2017 Summer Issue of INDEXA Newsletter is now available online at: <http://indexa.org/documents/newsletters/Newsletter-Issue-118-Summer2017.pdf> In this newsletter, Stanislav "Stan" Vatev, LZ1GC, will give you the inside story of running a two man DXpedition in the South Pacific to the Solomon Islands and Temotu Province as H44GC and H40GC, respectively. INDEXA has supported Stan's activities in the past. In the earlier effort and in this effort, we learn that sleeplessness is the norm if the needs of the pileup are to be met. After reading his story, I think you'll agree that Stan was conscientious in his commitment to those who wished to find their callsign in his log.

IOTA NEWS.....

AS-074. Operators Ahmad/9M2AGC, Mohd/9M2AIS, Hasya/9M2EME, Fazli/9M2FDO, Fazzuan/9M2FZK, Jefri/9M2JEP, Mad/9M2ODX, Kayrol/9M2OOO, Amirol/9M2ROL, Azrishah/9M2UDE, Ahmad/9M2VDX, Muhammad/9M2ZDX, Muhamad/9W2BFZ, Mohd/9W2FOR, Hizami/9W2RGZ and Mohd/9W2ZIT will be active as 9M4IOTA from Indah Island between September 16-18th. Activity will be on 80-10 meters using CW, SSB and the Digital modes. QSL via direct to address on QRZ.com.

AS-096. Operators Rama/VU2DEV, Gaurav/VU2GTI, Koodur/VU2RCT, Devan/VU3DEW, Pradeep/VU3EDG, Vinod/VU3ESV, Girish/VU3GDS, Madhu/VU3NPI, YL Shyla/VU3SXH, Poojith/VU3YPP, Likith/VU3ZLS and Nyjil/VU3ZNG will be active as VU3NPI from St. Mary's Islands between September 30th and October 1st. St. Mary's Island is also known as Coconut Island, and is a small island in the Arabian Sea off the coast of Malpe in Udupi, Karnataka, India. It is less than a kilometer square. The isles are known for their distinctive geological formation of columnar basaltic lava. Activity will be on various HF bands and modes. The team will be operating on battery power with an array of antennas from verticals to yagis to phase shift vertical antennas with a host of rigs. QSL via VU3NPI. Visit their Web page at: <http://www.vu2.in>

OC-175. Operators Yan/RZ3FW and Sergey/R4WAA will be active from Sarangani Island as DU9/RZ3FW and DU9/R4WAA between November 21-29th. Activity will be on various HF bands and include the CQWW DX CW Contest (November 25-26th). QSL DU9/RZ3FW via RZ3FW or ClubLog's OQRS. QSL DU9/R4WAA via R4WAA.

OC-216. Operators Mike/AB5EB, Mike/AD5A and Craig/VK5CE will be active as VK9AR from Ashmore Reef between November 7-10th. Activity will be on 40-15 meters with three stations on the air at the same time; two with amps. QSL via VK5CW, direct or by the Bureau or ClubLog's OQRS. REALTIME BAND CONDITIONS WEB SITE <http://www.bandconditions.com>:  
 The purpose of this experimental Web site is to provide 24-7-365 actual  
 (REALTIME) band condition information to CW QRpp, QRPe and CW/SSB for  
 Contesters interested in increasing their scores. It can also be of  
 benefit to other Radio Amateurs to determine band conditions for Nets  
 and casual QSO's. This information is NOT based on any software pre-  
 dictions or any kind of satellite based readings. It is based on a  
 new Ionospheric sounding method called "HF Ionospheric Interferometry"  
 which operates very similarly to the PolSAR system used by NASA.

WRTC 2018 NEWS (Press Release - Friedrichshafen, Germany, dated July 14th). Michael Höding, DL6MHW, Vice-President, Fundraising, PR, reports [edited]: DX Engineering has increased its support for the World Radiosport Team Championship 2018 (WRTC). The company is now a Gold Level sponsor. The announcement was made by WRTC 2018 at the Bavarian Contest Club annual dinner in Friedrichshafen, Germany this past July.

"DX Engineering is proud to support this outstanding event," said Tim Duffy, K3LR, Chief Operating Officer of DX Engineering. "We strongly believe in the global impact of WRTC2018 as Contesters and DXers from around the world will take part."

"We welcome the increased support by DX Engineering," said Christian Janssen, DL1MGB, President of the WRTC 2018 Organizing Committee. "Teaming with innovative partners like DX Engineering will help insure the success of this event."

WRTC 2018 will be held July 12-16th, 2018, in the Jessen/Wittenberg region of Germany, south of Berlin. Approximately 60 teams will fight for the title of World Champion. Unlike the usual contesting, WRTC 2018 participants must use identical antennas in the same geographical region, which eliminates many variables. The WRTC 2018 will be supported by about 300 volunteers who will set up the antennas and host the infrastructure.

About DX Engineering - At DX Engineering, Amateur Radio is all we do. Our goal is simple: fulfill the needs of Ham radio enthusiasts with the best products and technical support. Whether it's DXing, Contesting or just everyday operating, we strive to develop products that fill a specific need, are fully tested, reliable, and represent the best value for your money. DX Engineering also carries the highest-quality products from brands that meet our exacting standards. Read more about DX Engineering at < DXEngineering.com>.

About WRTC 2018 - WRTC 2018 e.V. is the organizer of the World Radiosport Team Championship 2018 in Germany. The WRTC is held every four years. Previous WRTCs were held in Seattle/USA (1990), San Francisco/USA (1996), Slovenia (2000), Finland (2002) Brazil (2006) Russia (2010) and New England/USA (2014).

XT2, BURKINA FASO (Update). Harald, DF2WO, will once again be active as XT2AW from Ouagadougou, Burkina Faso. He informs OPDX that he will arrive on September 25th, and plans to build antennas on the 26th, which is a Hexbeam at 8 meters high and dipoles for the lower bands. Activity will be holiday style on 40-10 meters using CW, SSB and the Digital modes. He states that he works mostly on the Digital modes (PSK31, JT65 and RTTY) and slow CW. Harald states, "As soon as the conditions go up to USA, I will work the US. Also, I will test 60m a little." Radio is a FT-450D. QSL via M0OXO, direct or OQRS <<http://www.m0oxo.com/oqrs/>>.

YB72, INDONESIA (Special Event). There are now 10 special event stations active until August 17th, to celebrate the 72nd anniversary of Indonesia's

independence. Look for the following stations to be active on all HF bands, including the 30/17/12m bands, using CW, SSB and the Digital modes:

- \* YB72RI/0 : Jakarta Special District
- \* YB72RI/1 : West Java and Banten
- \* YB72RI/2 : Central Java and Special District of Yogyakarta
- \* YB72RI/3 : East Java - Madura
- \* YB72RI/4 : South Sumatera, Lampung, Jambi, Bengkulu and Bangka Belitung
- \* YB72RI/5 : Riau, Riau Islands and West Sumatera
- \* YB72RI/6 : North Sumatera and Special District of Aceh
- \* YB72RI/7 : West Kalimantan, South Kalimantan, East Kalimantan, Central Kalimantan
- \* YB72RI/8 : South Sulawesi, South East Sulawesi, West Sulawesi, Central Sulawesi, North Sulawesi, Gorontalo, Maluku and North Maluku
- \* YB72RI/9 : Bali, Nusa Tenggara Barat, Nusa Tenggara Timur and Papua

There will be three different awards available and a special plaque. Please do not send your QSL card as Organisasi Amatir Radio Indonesia (ORARI-HQ) will automatically send YB72RI special in e-QSL cards to all valid contacts as showed in LOG from all stations. e-QSL will be send to your email.
